

Marvel Comics Avengers Chronological Appearances

By Bob Wolniak

Based initially on the Bob Fronczak list from *Avengers Assemble* and *Avengers Forever* websites. But unlike Mr. Fronczak's list (that stops about the time of Heroes Reborn) this is NOT an attempt at a Marvel continuity (harmony of Marvel titles in time within the fictional universe), but *Avengers appearances in order in approx. real world release order*. I define Avengers appearances as *team* appearances, not individual Avengers or even in some cases where several individual Avengers are together (but eventually a judgment call has to be made on some of those instances). I have included some non-Avengers appearances since they are important to a key storyline that does tie to the Avengers, but noted if they did not have a team appearance.

Blue (purple for WCA & Ultimates) indicates an Avengers title, whether ongoing or limited series. I have decided that Force Works is not strictly an Avengers title, nor is Thunderbolts, Defenders or even Vision/Scarlet Witch mini-series, although each book correlates, crosses over and frequently contains guest appearances of the Avengers as a team. In those cases, the individual issues are listed. I have also decided that individual Avengers' ongoing or limited series books are not Avengers team appearances, so I have no interest in the tedious tracking of every Captain America, Thor, Iron Man, or Hank Pym title *unless they contain a team appearance or x-over*. The same applies to Avengers Spotlight (largely a Hawkeye series, with other individual appearances), Captain Marvel, Ms. Marvel, Vision, Wonder Man, Hulk, She-Hulk, Black Panther, Quicksilver, Thunderstrike, War Machine, Black Widow, Sub-Mariner, Hercules, and other such books or limited series. Especially now that the New Avengers have Wolverine and Spider-Man, if one were to track every appearance of every individual Avenger that was ever on the team, you'd have to track a good majority of the entire Marvel Chronology Project from the 1940's to the present! Instead I am aiming at a more manageable **team appearance list since their 1963 formation**.

Green indicates a major appearance outside an Avengers title. These may be Avengers storylines in other titles, or some sort of historically important team appearance even if it wasn't really an Avengers story. I admit there is some subjectivity between green and black.

Black indicates a minor appearance or a necessary part or correlation to a storyline without an Avengers appearance. In some cases I will indicate how minor by listing the number of panels or pages the Avengers appear in. Technically, these are not Avengers storylines, but may have some sort of appearance.
